

Lowpoly Style Ultra Pack URP – Readme V1.2

Thank you very much for purchasing my pack! I hope it is useful to you. Please check out this short readme to get you started.

Universal Render Pipeline

Please note that this is the URP version of the asset, so make sure you are using a URP unity project before importing. You can upgrade to the standard shader version for free via the asset store if you need it.

Contact

If you have questions, need help or have ideas for new packs please contact me.

- Email: chunityassets@gmail.com
- Web: <https://chassets.wordpress.com/>

- Instagram: <https://www.instagram.com/chassets/>
- Lowpoly Style Forum Thread: <https://forum.unity.com/threads/released-lowpoly-style-packs.470131/>

If you like the assets, it would be awesome if you would consider rating them in the asset store.

Thanks again for your purchase,

CH
